## Knowledge

**Full-stack Software Engineer • JavaScript • Node.js • SQL • Express.js • React • TDD • etc**

- **Understanding the Full-stack.** I have mastered the tools that front-end developers use every day, from HTML to React, plus server-side back-end JavaScript libraries with Express.js.
- **Git Version Control.** I have used Git Version control to keep track of my projects and development life cycle and used it to collaborate with other people.
- **Front End Development.** I have honed my skills with HTML and CSS and moved to implementing landing pages and other complex web pages using ReactJS and React-Native library's.
- **Communication skills for managing teams and training staff members for complex jobs.** Leading a team with exceptional service and communication skills then teaching and motivating the team members to perform these jobs with the customer in mind.
- **High pressure work environments.** Working at Crown resorts has taught me to manage my time well when dealing with some of the busiest work environments in Australia, completing weekly work place Audits in a timely manner to publishing monthly rosters for over 100 staff members all while managing a 24/7 venue.

*"I can confirm that Mr. Fitzgerald has been nothing but efficient, Professional, hardworking and polite in all areas of his job."*
